SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Providing Information About Pediatric Uses of Medical Devices Under Section 515A of the
Federal Food, Drug, and Cosmetic Act

OMB Control Number 0910-0762--Extension

The guidance document entitled “Providing Information About Pediatric Uses of Medical Devices--Guidance for Industry and Food and Drug Administration Staff” suggests that applicants who submit certain medical device applications include, if readily available, pediatric use information for diseases or conditions that the device is being used to treat, diagnose, or cure that are outside the device’s approved or proposed indications for use, as well as an estimate of the number of pediatric patients with such diseases or conditions. The information submitted will allow FDA to identify pediatric uses of devices outside their approved or proposed indication for use to determine areas where further pediatric device development could be useful. This recommendation applies to applicants who submit the following applications: (1) Any request for a humanitarian device exemption submitted under section 520(m) of the Federal Food, Drug, and Cosmetic Act (the FD&C Act) (21 U.S.C. 360j(m)); (2) any premarket approval application (PMA) or supplement to a PMA submitted under section 515 of the FD&C Act (21 U.S.C. 360e); and (3) any product development protocol submitted under section 515 of the FD&C Act.

Respondents are permitted to submit information relating to uses of the device outside the approved or proposed indication if such uses are described or acknowledged in acceptable sources of readily available information. We estimate that 20 percent of respondents submitting

information required by section 515A of the FD&C Act will choose to submit this information and that it will take 30 minutes for them to do so.

In the Federal Register of December 5, 2016 (81 FR 87575), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

FDA estimates the burden of this collection of information as follows:

Table 1.--Estimated Annual Reporting Burden¹

Description	No. of Respondents	No. of Responses per Respondent	Total Annual Responses	Average Burden per Response	Total Hours
Uses outside approved indication	148	1	148	0.5 (30 minutes)	74

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Dated: March 13, 2017.

Leslie Kux,

Associate Commissioner for Policy.
